## Radical Noise, Back Out

I don't wanna see your sold out proud I don't wanna hear your unstable mouth You're goind where the wind blows your head Chained to your cage, dogging from hell

LP's you sell same as a canned bean Packaged better than a tasteful ice cream High satisfaction with a fart in my stomach After a day, I'll throw them to a bin

What a pity! Just crap for me

Your success is your failure Wake up boy! Your ass gets stepper One step back and you feel older Your pocket gets fatter Back out!
