

Radical Noise, Chaos Flows

This world needs a break
We all hate the way we breath
Common speaker: The end is near
But the untouchables never quit

Chaos flows from coast to coast
Tyrants attack like hungry wolves
Hidden faces behind the law
Creates fat-ass system of political gore

Chaos flows mind division
Illusion of freedom
Hear our voice my breathless voice

Salvation
in unity
of the oppressed
Resistance!

Chaos flows (x3)

Screaming from the third world hell
Blood and vengeance everywhere
"Secret target" is the name of the game
"Democracy" puts us all in shame

Let's have a look at the western clan
Society built upon people's bones
Silence of the dumb lambs
"Nations of wealth"

Chaos flows mind division
Illusion of freedom
Hear our voice my breathless voice

Salvation
in unity
of the oppressed
Resistance!

Chaos flows (x3)
