## Radical Noise, Fade Away

These are the days which everyone hates All people are looking for some fun to relax So what do you really want me to say This song is not about love or hate

Do you really want to join us know There's no invitation, it's pattern of life We don't have any "wanna be's" on our side Every Mr. Knowltall is already gone hah

No prejudice, no diggin' views, no more silence, here's the news Who we are, where are we from, doesn't matter, let it go

Here we are, Let it go, Get down On your knees and jump

We are growing day by day The others only fade away
