

Radio Killer, KILL THE LIGHTS

Please kill the lights,
Stay by my side
I want you to feel me: body & mind
Please kill the lights,
Stay by my side
I want you to feel me: body & mind

Love is free, and so are we
Let us in the shadow, we don't need to see
We don't just kiss, we're tasting lips
When you touch me,
Love is dripping from your fingertips

I know you (kill the lights)
You know me (kill the lights)
We can feel (kill the lights)
Let's kick the vibe alive!
I know you (kill the lights)
You know me (kill the lights)
We can feel (kill the lights)
Let's kick the vibe alive!

Love is blind, but I see you
Baby let's kill the lights and do what lovers do
Love is lie, but if you do
Then baby I'll kill the lights and I'll kill you too

I know you (kill the lights)
You know me (kill the lights)
We can feel (kill the lights)
Let's kick the vibe alive!
I know you (kill the lights)
You know me (kill the lights)
We can feel (kill the lights)
Let's kick the vibe alive!

Please kill the lights,
Stay by my side
I want you to feel me: body & mind
Please kill the lights,
Stay by my side
I want you to feel me: body & mind
/2x

I know you (kill the lights)
You know me (kill the lights)
We can feel (kill the lights)
Let's kick the vibe alive!
I know you (kill the lights)
You know me (kill the lights)
We can feel (kill the lights)
Let's kick the vibe alive
