

# Radney Foster, What Are We Doing Here Tonight

Ever take a drink  
stop and wonder why?  
Think about where the shadows go when you turn out the lights?  
Why God put tears in men if we're not supposed to cry?  
What it is we're doin' here tonight?

Ever make a promise  
With your fingers crossed just right  
Pull a high school stunt and wonder why you're still alive  
Why the bumble bee don't give a damn that he ain't supposed to fly  
What are we doin' here tonight?

I guess what I'm saying is I really like your style.  
I guess there's no harm if we just talk a little while.  
Anything is possible.  
This just might work out right.  
So what are we doin' here tonight?

Ever have a dream  
and watch it slowly fade?  
Find what you thought was true love just turn and walk away?  
Well, I believe that even if we lose it's worth the fight  
Baby, what are we doin' here tonight?

Anything is possible  
This just might work out right  
What are we doin' here

Ever take a drink  
stop and wonder why  
stars up in the sky don't dance like this every night?  
Why God put love in hearts if we're not supposed to try?  
Baby, what are we doin' here tonight ?

What are we doin' here tonight?  
What are we doin' here tonight?  
What are we doin' here tonight?  
yeah yeah yeah
