

# Rage, Full Moon

The sun is going down on a blood red sky  
And I feel it coming from real deep inside  
Now I gotta hide

Darkness blacker than black is creeping  
Down from all of the trees around  
Nothing moves, everything is sleeping  
All that creatures won't make a sound

Won't you set me free, won't you set me free  
When the full moon will rule the night

I need someone to share my silence  
Lonely is it, a hunter's night  
Can you feel what I feel and can you  
Stand the nightmare to live this life

My beast from within  
companion in sin

Won't you set me free, won't you set me free  
When the full moon will rule the night

I'm falling from grace

Won't you set me free, won't you set me free  
When the full moon will rule the night
