

Rage, Heartblood

On a dusty winding road luck is not for free
If you did like you were told you will never see
Just give me your heartblood...
Can it be a sin to speak in the tongue of freedom?
You will only win if you try the best to be you
Just give me your heartblood...
Warfare in a sick society
Out there give it all or leave it be
No fear! What do you mean- security?
Who cares about you? You'll only hear:
Give me your heartblood...
