Rage, Heartblood

On a dusty winding road luck is not for free If you did like you were told you will never see Just give me your heartblood... Can it be a sin to speak in the tongue of freedom? You will only win if you try the best to be you Just give me your heartblood... Warfare in a sick society Out there give it all or leave it be No fear! What do you mean- security? Who cares about you? You'll only hear: Give me your heartblood...
