

# Rage, Time Waits For Noone

You don't like what you see  
you don't know what it means and what it's like.  
You close your eyes, you're afraid that all you  
have learned has changed

Time waits for noone  
You can't fix it if you try  
Time waits for noone  
You can join it for a little while

Once put into your brain  
all the things of life got a special frame  
but you forget that this world's got a different  
face each day

Time waits for noone  
You can't fix it if you try  
Time waits for noone

You can join it for a little while  
You can join it till you die

"What's this jungle noise?  
Long haired filthy boys?  
Sex before marriage?  
You don't believe in the pope?!

Time waits for noone
