

# Raghav, No No

No need to say a word that girl its so clear  
O I can read through those tears  
That man just stole u from me  
so what u got to say is my biggest fear  
Last thing i needed to hear that  
u no longer love me

So today before do what u got to  
girl may one last request that you  
i just need one more night without the truth so...please say

No No No No  
tell me how i got it wrong  
no one could just come along  
and not going to Take u from me  
No No No tell me im losing my mind  
promise me when u close ur eyes  
ur only dreamin of me

No need to say a word that girl its so clear  
O I can read through those tears  
That man just stole u from me  
so what u got to say was my biggest fear  
Last thing i needed to hear  
that u no longer love me

So today before u step up to break my heart  
before u start to tear my world apart  
Just know that i wont ever stop u  
Ive been where u are

I just need one more night without the truth so...please say

We use to spend our nights dreamin along  
i guess those days are gone  
and i forever lost u  
i never thought that u would hurt me like that  
i guess there no turning back  
O girl i always want u

So today before u step up to break my heart  
before u start to tear my world apart  
Just know that i wont ever stop u  
Ive been where u are  
b4 u do what u got to  
girl may one last request that you  
i just need one more night without the truth so...please say

No No No No tell me how i got it wrong
