

# Raging Speedhorn, The Hate Song

Type by Phil Smith

I hate you all  
Because you're free  
Can't hear what you say to me  
Get fucked, don't scratch my back  
Stay the fuck away from me

I hate them all  
For what they've done to me

All lies, where did the money go?  
Hope you choke on your brandy  
Big friends, but you're stepping back  
When the shit hits the fan

## CHORUS

Hate - this song is for you  
Hate - you never thought we knew  
Hate - this song is for you  
Hate - and now we're back  
To set the record straight

Don't want to do this now  
How about if I kill them all  
You helped me get through this  
By telling lies and faking all

What the fuck?  
You never give me the time of day  
You'll never fucking take my life

Don't want to be like you  
Not so great to be you  
Just fuck off, you don't own me  
I'm sick of having all this:

[REPEAT CHORUS]
