

# Ragnarok, A Nights Kingdom

Wicked eyes, see how she so beautiful dies  
Storm full skies takes her  
Into the chaotic underworld.  
See her eyes behind the shadow  
In the thunderously silence.  
See her grim and majestic violence

To fill her luscious fears,  
To give us thy precious tears.  
Give thy self to the mysteries of your night  
Now... come inside!  
There is no where to despair,  
Victory is now here...

A blazed by the mist of terror,  
She subsides into the great horror.  
Accrue! And touch the black flame  
Leather! For thy kingdoms underworld  
Has once again opened.  
Chaos is all  
Chaos is never ending  
Oh, lustful whore,  
You are mine forever more...
