

# Rainbirds, Love Is A Better Word (White City Of L

white city of light  
you're dark in the middle  
city of dreams  
i want to hide in your womb  
white city of light  
you got me into trouble  
city of lies  
you took me for a fool  
love is a better word  
love is a better word  
love is the only word  
that you understand  
white city of love  
you're such a pretender  
city of sleep  
you took all my energies  
white city of light  
oh i want to surrender  
city of schemes  
i am lost in your life  
love is a better word  
love is a better word  
love is the only word  
that you understand  
got to find me a better word  
got to get me an easy word
