

# Rainbow, Stand And Fight

Can't say something if the words ain't there  
What you trying to do  
Money can't buy me out of trouble I'm in  
I've been messing with the likes of you

Been so long since I left my home  
Looks like I lost my way  
Tried so hard just to make it work  
You just turn around and walk away

Something's got to give, I ain't gonna leave  
Time to dig down deep  
If you wanna get out of this town alive  
You gotta stand and fight

So infuriating the way you twist my words  
I know you got your problems, it seems every day  
That they're getting much worse  
I hear you screaming for attention  
You say your life's a mess  
Something else to cry about  
Just get on with it

Something's got to give, I ain't gonna leave  
Time to dig down deep  
If you wanna get out of this town alive  
You gotta stand and fight
