

Rainbow, Stranded

Dog night I'm so alone
a million miles out on my own
No one to talk no one to care
Searching for someone they could be anywhere
Magic and madness it's so very strange
Soemtimes I think it's all pre-arranged
That same old feeling hits me again
Just the beginning but its feels like the end
Oh feel like I'm stranded out here
Oh I think I might disappear
No don't leave me stranded out here
Oh it's just the loneliness I fear

Lonely window fading star
You never felt so near yet so far
Tried to forget you the best that I could
Don't try to find me it won't do any good
I'm caught in a dream so hard to locate
I'm just a captive of my own fate
No turning back no not tonight
You're moving on way out of sight
Oh feel like I'm stranded out here
Oh I think I might disappear
No don't leave me stranded out here
Oh it's just the loneliness I fear
Stranded (8 times)
Oh I feel like I'm stranded out here
Same as before
Stranded (8 times)
