

# Raised Fist, Some Of These Times

As I walk through memories  
And at the end of these  
I've burned a lot of pain to see you within  
Deep powdered my skin and it's ( burning )

And I wanna break through to you  
Try to speak to you ( and I )  
And I seem to get to what's right  
But you're not listening right

When you went through my head  
Turned it upside down  
Fuck you, sick of you all the time  
( I'm sick of you all the time... )

And some of your shit, reaches my evil side  
And I can't deny, some of these times  
I wish you would die

Listen up, All the time, Suck it up  
You just cannot see it  
( Sick of you all the time )  
Listen up, All the time, Suck it up  
You just cannot see it

Why can't you learn to read the sign  
Read between the lines  
Closer to what I want to say  
And now I totally feel

Instead I have to put all this in rhymes  
Some I seriously am gonna buy  
Does it make you feel fine  
( No resisting )

When you went through my head  
Turned it upside down  
Fuck you, sick of you all the time

And some of your shit, reaches my evil side  
And I can't deny, some of these times  
I wish you would die

Listen up, All the time, Suck it up  
You just cannot see it  
( Sick of you all the time )  
Listen up, All the time, Suck it up  
You just cannot see it  
( I'm sick of you all the time )  
Listen up, All the time, Suck it up  
You just cannot see it  
Listen up, All the time, Suck it up  
You just can't believe it  
( I'm sick of you all the time )

Went through my head  
Turned it upside down  
Fuck you, sick of you all the time

Some of your shit, reaches my evil side  
Some of these times  
I wish you would die

Listen up, All the time, Suck it up

You just cannot see it  
( Sick of you all the time )  
Listen up, Suck it up, Listen Up  
You just cannot see it  
( I'm sick of you all the time )  
Listen up, All the time, Suck it up  
You just cannot see it  
Listen up, All the time, Suck it up  
You just can't believe it  
( I'm sick of you all the time )
