

Raised Fist, Stronger Than Ever

We're back!

We are rising from graves
Just to see the disgrace
In your fucking face
Cos now we have realized
That we get nothing done
If we only have fun

The resistance from you
Don't you think that we see everything that you try to do
But don't go too far
Cos you're nothing but an imagined star

Listen to me
Always with the rest
Always pretending that you are the best
You've tried to drag us down
Until we said never
But now we're back
Stronger than ever

We're back! - Stronger than ever

In a different way
With a lot of pressure - Stronger than ever
This time with more to say
You cannot deny it - Stronger than ever
Don't get in our way
Cos it feels like we are - stronger than fucking ever

Look at yourself
You are the pinball in the fucking society's game
The only difference
Is that if you mess up you get struck down not the surface of an arcade

You have to learn
That talking shit isn't going to make the wheels turn
You just got to see
That you get burn
So fucking burn

You listen to me
Always with the rest
Always pretending that you are the best
You've tried to drag us down
Until we said never
But now we're back
Stronger than ever

We're back! - Stronger than ever

This time in a different way
With a lot of pressure - Stronger than ever
We've got so more to say
You cannot deny it - Stronger than ever
Don't get in our way
Cos it feels like we are - stronger than fucking ever

Look at yourself
You are the pinball
In the fucking society game
The only difference is that if you mess up
You get struck down not the fucking surface of an arcade

Watch your step, kid!
Watch your step, kid!

Listen to me and give my words just a chance
Show me that you are for real and not a fake - kid
I will be singing the same year in, year out
And come into your head like a motherfucking earthquake

Watch your step, kid!
You can follow them - Watch your step
But I won't be a part of it - kid
