

Raised Fist, To Make Up My Mind

I'm needing this time to make up my mind
Every time when we're lonely together
I think of the options I've got
You have disturbed me for a long time right now
How much is it for me to take
Listen, I really got to find
A way, to fucking make up my mind
I can't repend
Don't play like me like I'm just in your way
I'm so sick and tired of this
Now you are alone there is no place to go
Fuck, take your goddamned kiss
Forget
You put me up in the dirt
You never thought that I got up by just a grab in your skirt
And this is my way to say with no delay
I'm never going fucking your way, no
I'm needing this time to make up my mind
Every time when we're lonely together
I think of the options I've got
You have disturbed me for a long time right now
How much is it for me to take
Listen, I really got to find
A way, to fucking make up my mind
