

# Ramones, Daytime Dillema (Dangers Of Love)

She came from a happy home  
A very happy home  
A very happy home

Miss personality, a grade 'a' student naturally

She had it all worked out  
But things aren't what they seem  
Is this real or just a dream  
And things will never ever be the same again

She came from a happy home  
A very happy home  
A home of happiness

Miss personality, a grade 'A' student naturally  
She had it all in place  
But things aren't what they seem  
Is this real or just a dream  
Things will never ever be the same again

The dangers, its the dangers of love  
The dangers, its the dangers of love

She came from a happy home  
A very happy home  
A very happy scene

She caught him with another  
It turns out it was her mother  
What a tragedy  
Can things be what they seem  
Is this just some crazy dream  
Things may never ever be the same again

The dangers, its the dangers of love  
The dangers, its the dangers of love

Keep telling li-ie-ies, but you did  
You know you did  
Its coming,.its coming,.its coming

The dangers, its the dangers of love  
The dangers, its the dangers of love

What went wrong she couldn't tell  
But we know it all too well

The dangers, its the dangers of love  
The dangers, its the dangers of love
