

Randi Laubek, Leave It All Behind

This morning
Quite early
I woke up to a change
The warfare is over
I can't take it another day
We've been fighting far too long
Tonight I'll pack my bags
I have made up my mind
I'm leaving it's fine

We both deserve better
This was a fruitless tree
We need some good vibrations
Some go
Some energy
I'm sure there's greener pastures and luck for him and me
I have made up my mind...

Let's leave it all behind
Let's leave it all behind (get ahead get over it)
Let's leave it all behind
Get ahead, get over it
At least we tried

So pick me up at seven
I'll spend the night with you
It's all right
We'll swan dive
It's the right thing to do
Now it makes sense
This so intense beauty between you and me?
I have made up my mind. I'm leaving it's fine.

Let's leave it all behind...etc
