Randy, dirty tricks

a knock on the door, a declaration of war we're taking over to the sound of guitars wrong is made right, tables are turned cause i'm here to teach and they've got to learn

burning tires, building bombs, throwing bricks so it goes when the kids are sick of your dirty tricks

power in the hands of those rich enough to buy it we're taking it back with this musical riot politicians, police and the laws kicking them out with our rocking armed force

burning tires, building bombs, throwing bricks so it goes when the kids are sick of your dirty tricks

hope i'm dead before i'm old things aren't going very well honey, you and me are being bought and sold i knew i was in trouble, didn't know i was in hell

burning tires, building bombs, throwing bricks so it goes when the kids are sick of your dirty tricks

dirty business, dirty deeds and dirty politics we had enough, the kids are sick of your dirty tricks
