

Randy Newman, Sandman's Coming

MARGARET:

Close your eyes now, little girl
They don't want to hear you cryin'
You never had a chance
You never had a chance

It's a great, big dirty world
If they say it's not they're lyin'
Sandman's coming soon
You know he's coming soon

Close your eyes and dream a little dream for you and me
Dream yourself a place where you can go
Baby, you never know

Close your eyes now, little girl
Go to sleep my little baby
Sandman's coming soon
You know he's coming soon
