## Randy Travis, Everywhere We Go

They took Your commandments off the schoolhouse walls They say it's a crime to even pray within the halls But bless the child that lets You in and knows without a doubt Once You live inside a heart, they can't take You out We are soldiers of the cross We've been found to reach the lost In cityy streets, down country roads We take You with us everyday, and everywhere we go Here's to those across the land, working in a place Where the boss man and the government say they can't share their faith They know all too well they'll lose their job if they get caught But to win a soul for Jesus, they will risk it all because We are soldiers of the cross We've been found to reach the lost In cityy streets, down country roads We take You with us everyday, and everywhere we go In the God of all creation, we put our faith and trust And give our lives to You 'cause You gave Your life for us We are soldiers of the cross We've been found to reach the lost In cityy streets, down country roads We take You with us everyday, and everywhere we go Everywhere we go
