

# Randy Travis, No Stoppin' Us Now

(Chorus)

There's no stoppin' us now

We've gone all the way

There's no slowin' down

This love fits us so right

There's no holdin' back

And there's no end in sight

You and I have found

What few will ever find

And we started so young

Even time's on our side

Chorus

It's hard to believe

That I really got by without you

So now every hour seems empty

When I'm not beside you

Chorus
