

# Rascal Flatts, Waiting All My Life

Everybody needs it  
Everybody wants it  
Everybody's searching for someone  
Been down a thousand highways  
I never thought would end  
Baby, I've been

[Chorus]  
Waiting all my life to find you  
Always been one step behind you  
Your love babe  
I've been waiting all my life

I was tired of waiting  
Every night was praying  
Everyday would be the day I'd find you  
I grew so impatient, how long would it take  
To know you were out there somewhere  
Somewhere waiting, wondering just like me

[Second Chorus]  
I've been waiting all my life to love you  
All that time I was dreaming of you  
Your love babe  
I've been waiting all my life

And did I lose faith, did I lose heart  
Maybe I did, but I never lost my way  
To where you are-I've been

[Repeat Chorus]

[Repeat Second Chorus]

Your love I've been waiting  
Your love I've been waiting all my life  
All my life, all my life
