

# Raspberries, Let's Pretend

I can't sleep nights  
Wishing you were here beside me  
Can't help feeling  
That's the way it ought to be  
You know we could run (run, run) away  
But I couldn't bear  
To hear the things they'd say, oh no

Baby, let's pretend that tonight could live forever  
If we close our eyes and believe it might come true  
Baby, let's pretend we could always (1,4: be 2,3: live) together  
But for now just let me spend the night with you

Somehow, someday  
Things are gonna be so different  
Don't cry, someday  
I promise it'll be alright  
So now that we're all alone  
I couldn't bear  
To leave to take you home, oh no

So take me now  
My love can't wait  
We're almost there now, darlin', darlin'  
Hold me (hold me), hold me (hold me)  
Ho-oh-old me
