

RAUM, Fake Love (Łotwa - piosenka na EUROWIZJA 2023)

forgot about the pictures u sent
back when we more than not friends
now there u go lighting up my phone

u said ur in town for the weekend
we should grab a couple drinks, yeah, just friends
i think i know how this story goes

we have a sip, it turns into two
my demons have way too much fun with u
back of a cab, ur hotel room
ready, set, doom

this is fake love
medicine-with-champagne love
playing-tricks-with-my-brain love
so why the hell can't i move on?

we got fake love
pretty but plastic play-love
i like it but it's making me hate love
so why do i keep wanting more
of ur fake love?

are we on? are we off? in between?
let me off of this ride, i'm dizzy
but here i go writing u "hello"

guess we're just crazy, dumb or bored
cuz we know it's never worked before
and every time i slam the door behind
how are u on the other side?

this is fake love
medicine-with-champagne love
playing-tricks-with-my-brain love
so why the hell can't i move on?

we got fake love
pretty but plastic play-love
i like it but it's making me hate love
so why do i keep wanting more
of ur fake love?

we have a sip, it turns into two
my demons have way too much fun with u
back of a cab, ur hotel room
ready, set

this is fake love
medicine-with-champagne love
playing-tricks-with-my-brain love
so why the hell can't i move on?

we got fake love
pretty but plastic play-love
i like it but it's making me hate love
so why do i keep wanting more
of ur fake love?
