Raven-Symon, Face To Face

Boy don't be a mystery
Cause I'll like to see
How it'll be
Getting to know you
Curiously
Watching you knowing you
Watching me
Looks like it's good
To get close to you
Don't no how
It gets to me when I see you
Think how good
It could be I don't wanna
Give you, give you
Just wanna get face 2 face
Hand in hand
Chest 2 chest
Hold me round my waist
Can you make me lose my breath
Like we're running away
Keep it going
Til there's no one left
And left in the place
All ya gotta do
Is just pursue it
Let's get face 2 face
I wanna get close to you
Why can't I approach you
Cause I feel
It just wouldn't be right
[?]
A flame on a lighter
A chalk to a writer
(All that I desire)
Just wanna be face 2 face
Now lemme break it down
Now we gonna break it on down
Gotta come
A lil closer lemme show
Ya this how it's gon get down
Gotta hold me by my waist
Bout step but a dip in the pace
Gotta go right 2 left, up and back
Do it this way, face 2 face
Hand in hand
Chest 2 chest
Hold me round my waist
Can you make me
Lose my breath
Like we're running away
Keep it going
Til there's no one left
And left in the place
All ya gotta do
Is just pursue it
Let's get face 2 face
Hand in hand
Chest 2 chest
Hold me round my waist
Can you make me
Lose my breath
Like we're running away
Keep it going
Til there's no one left

And left in the place
All ya gotta do
Is just pursue it
Let's get face 2 face
Up in this party
Your across from me
And the dance floor
Is staring between us
Your stalling
Music's calling
Will you answer please
And save this dance 4 me
Let's dance face 2 face
Hand in hand
Chest 2 chest
Hold me round my waist
Can you make me
Lose my breath
Like we're running away
Keep it going
Til there's no one left
And left in the place
All ya gotta do
Is just pursue it
Let's get face 2 face
Hand in hand
Chest 2 chest
Hold me round my waist
Can you make me
Lose my breath
Like we're running away
Keep it going
Til there's no one left
And left in the place
All ya gotta do
Is just pursue it
Let's get face 2 face
