## Ray Charles, Christmas Time

Down through the ages Round this time of year People's hearts all a-glow Yuletide carols fill the air with cheer While children laugh and play out in the snow Lights on christmas trees And snowflakes fallin' down What a lovely site to see You will always know when christmas time is near You feel the need to be in harmony 'Cause christmas time Is really more than givin' It's spreading all the news of peace and love Christmas time Is all about receiving The gift that god has sent from up above

## [instrumental interlude]

People goin' here And people goin' there Buying gifts for those they Know and love Never stop to think That the greatest gift of all Is he who sends his love from up above Waitin' in suspense To open all my gifts It seems like the time just creeps along When we finally see the presents that we have We open up our hearts and sing this song That christmas time Is really more than givin' It's spreading all the news of peace and love Christmas time Is all about receiving The gift that god has sent from up above Christmas time Is really more than givin' Christmas time Is all about receiving Christmas time Spreading news of peace and love Christmas time The gift that god has sent from up above Christmas time Is really more than givin' {fade}
