

# Ray Price, Same Old Memories

You said that you'd come back and start all over  
Our love would be the way it used to be  
But you just want me when there are no other  
You play your game so you come back to me  
The same old memories are back just like they were before  
The same old memories and everytime they hurt me more  
You're happy when my heart is on its knees hurting with the same old memories  
[ fiddle - steel ]  
The same old memories...
