

RBD, Fire

Temperature is rising
I can feel the hunger in your eyes
C'mon and love me
Move a little closer
'cause it's only you and me tonight
I wanna feel you
Make my body talk
just give me love hang in Lord
Feel it what's started
And come, give some more!
It's like fire!
When you're close to me
I get higher
From your energy
Every touch, every moment
That I share with you
I feel desire
'cause every time you touch
it's fire! it's fire!
Take me to the limo
Ain't stop and ask he's on
You drive me crazy!
Yeah, you got me spinnin'
And that's the way
I feel that we would won
Oh, you're amazin'
Make my body talk
just give me love hang in Lord
Feel it what's started
And come, give some more!
It's like fire!
When you're close to me
I get higher
From your energy
Every touch, every moment
That I share with you
I feel desire
'cause every time you touch
it's fire... fire!
Fire... fire!
Fire when you're close to me
Higher from your energy
Colors that will always be
It's like fire!
When you're close to me
I get higher
From your energy
Every touch, every moment
That I share with you
I feel desire
'cause every time you touch
It's like fire! (fire)
When you're close to me
I get higher (higher)
From your energy
Every touch, every moment
That I share with you
I feel desire
'cause every time you touch
It's like fire!
It's like fire!
It's like fire!
