RBD, Gone

What you see's not what you get With you there's just no measurement No way to tell what's real from what isn't there

Your eyes they sparkled That's all changed into lies that drop like acid rain You washed away the best of me You don't care

You know you did it I'm gone
To find someone to live for in this world
There's no light at the end of the tunnel tonight
Just a bridge that I gotta burn
You are wrong
If you think you can walk right through my door
That is just so you
Coming back when I've finally moved on
I'm already gone

Sometimes shattered Never open Nothing matters When you're broken That was me whenever I was with you

Always ending, always over Back and forth, up and down, like a roller coaster I am breaking that habit today

You know you did it I'm gone To find someone to live for in this world There's no light at the end of the tunnel tonight

Just a bridge that I gotta burn You are wrong If you think you can walk right through my door That is just so you Coming back when I've finally moved on I'm already gone

There is nothing you can say Sorry doesn't cut it babe Take the hit and walk away Cause I'm gone

Doesn't matter what you do It's what you did that's hurting you All I needed was the truth Now I'm gone

What you see's not what you get What you see's not what you get

You know you did it I'm gone
To find someone to live for in this world
There's no light at the end of the tunnel tonight
Just a bridge that I gotta burn
You are wrong
If you think you can walk right through my door
That is just so you

Coming back when I've finally moved on I'm already gone
