

Reactor, Demon My Love

In the garden of darkness with weeds too tall
Thorns in my mind Colored by fall
The land of tomorrow When yesterday's gone
Memories fade into the past

Chorus: Demon in Chains
Angel of night
Lilith my Love, my Love...
Lady of Death
Sweet angel I hear
Lilith my Love, my Love...

Never remembered Washed away in the rain
My lady of light All desire and pain
What is this devil with the pain and the lust
Shackled and torn, covered with dust

(Chorus)

In the far, in the distant horizon
For all of us in lifes pathetic score
Still you linger, make us senseless with fear

(Chorus)

One ambition One sweet lie
A river that just will not run dry

(Chorus)
