

Reactor, Feeling The Love

Feeling The Love

You're looking my way, you're looking good
Needs no explaining, it's understood
Electric shivers, across my skin
It's like a fever, and you're my only medicine

Could I be dreaming your touching
I'm feeling the love as it flows through the air
Lighting my fire, igniting desire
It's hotter than heaven in here

You show me yours, I'll show you mine
Don't hurry baby, take your time
Know what I'm thinking, you think the same
Tear up the rulebook, and maybe we can play the game

Could I be dreaming your touching
I'm feeling the love as it flows through the air
Lighting my fire, igniting desire
It's hotter than heaven in here
