

Reagan Youth, Acid Rain

Daddy, daddy, daddy
Can I go out and play
No son you'd better stay inside the radio said today
There are many things like going inside to pray
Catch a little safety from the acid rain
Danger, danger, danger
The public be aware
The factories are toxic
And put poisons in the air
The raindrops can kill you
But do you fucking care
They're fucking up the system
But the system doesn't care
Danger, danger, danger
The public be aware
The factories are toxic
And dump poisons in the air
The raindrops can kill you
But do you fucking care
They're fucking up the system
But the system doesn't care
From acid rain, yeah acid rain,
It's acid rain, it's acid rain [3x]
