

Real Life, One Blind Love

One blind love
Comes falling out of me

Leaving me cold again
I could give you a lie
Feels like rain
And say we were never meant to be
Just to make you cry
And do what you do to me

And without love we could try
But oh, oh, oh, oh
Who said that love was easy
Don't they know
Love's not easy at all

It's hard for us all
Happy endings don't come easy

Don't you know
Stupid blind love
When will we ever learn
I know I can learn again
Only by your side
And without love we could try

But oh, oh, oh, oh
Don't they know

Who said that love was easy
It's hard for us all
Happy endings don't come easy
Don't you know
Love's not easy at all
