

Reason To Believe, Maybe Not

How did I scare you
How did you got that look upon your face
Just a simple hello
How hard is it to just say hi
Where's the smile
Where's the laughter
It's a coincidence
What are you after
We're not clicking here
There's no connections today
Don't be so surprised
If you see my face around again
"There's the guy who tried to talk to me"
I heard you tell your friends
You don't want me to see you
You don't want me to see you
I promise I won't look
I swear I'll shut my eyes
Promise not to look
There'll be no speculation
I won't dare to say hello
