

Reason To Believe, Places

Wish you could read my mind
Wish I could do the same
Wish you would give me a sign
Where I can place this blame
Where am I gonna place this blame
You can blame it all on me
There's a place for everything
You can blame it all on me
When I'll be doubting doubt
You can sit back rest assured
When I'll be wandering about
When you can grow further away from me
Who?
