Reba McEntire, Just A Little Love

(Dennis Morgan/Steve Davis)

When our check bounces at the store And the whole world seems at war You bring me peace of mind once more With just a little love

When the boss says I'm ten minutes late And the stack of bills just won't wait Ooo, you take the worries away With just a little love

Just a little love
And affection
You bring a touch of perfection
To a world that's sometimes crazy
And so mixed up
Just a little love
You have changed me
You make me see why the good Lord made me
And you can do miracles
With just a little love

When our old car won't run And all my dreams come undone You'll make it right won't ya hun With just a little love

When it seems like all the truths are gone When I'm trying so hard to hold on You make it easy to be strong With just a little love

Just a little love
And affection
You bring a touch of perfection
To a world that's sometimes crazy
And so mixed up
Just a little love
You have changed me
You make me see why the good Lord made me
And you can do miracles
With just a little love
