

Rebecca Lynn Howard, When My Dreams Come

(Trey Bruce/J.D. Martin)

Well I'm no different than the average girl
My dreams wrap around the world
And I'll be living somewhere in France
When my dreams come true
There'll be a big boat waitin' on me
I'll ride it out to sea
And I'll get up on the roof and dance
When my dreams come true
I'll find the perfect guy
Whose heart beats just like mine
And his great ambition will be me
When my dreams come true
He'll say, "Honey, you sure look nice tonight"
Every night
And he'll beat all you've ever seen
When my dreams come true
For eternity
When they turn into
My reality
I'll be with you
When my dreams come true
If I'm sleepin' please don't wake me up
At least this way
I'll know what I'm gonna do
When my dreams come true
For eternity
When they turn into
My reality
I'll be with you
When my dreams come true
