

# Rebecca St. James, We Don't Need It

You can have the money, wheel it, deal it, win it all  
You can have all of the fashion, you can even own the mall  
You can change your face into the person of your dreams  
Trim your nose and dye your hair and change your eyes from blue to green  
You can be a model, cover every magazine  
You can walk on every stage or be the host of M.T.V.  
You can win all the medals, run it, swim it perfectly  
You could have a turn at Indy, you could even own the team

## Bridge

We're never gonna see God if we keep looking for vogue  
We could gain the whole world but still be losin' our soul

## Chorus

We don't need it, cause God has given us our needs  
We don't want it, shouldn't He be our priority  
We don't need it, Jesus said to leave it all behind  
Let's keep our eyes on things above cause  
We don't need to want to need it

You can get a job on Wall Street, have more money than you've seen  
You can buy administrations and you can even own the queen  
You can own a castle, oily paintings on the wall  
Build a suite for every pleasure, have a disco, host a ball  
Drive a Lamborghini, fast as time and painted red  
Leather phone and matching fax and color TVs overhead  
Take your yacht to Rio, fly your jet up to Cancun  
Screamin' down the highway like a rocket to the moon

## Chorus
