

# Rebelde, Save me

Every now and then I get so sad  
Cause I miss you since you left me  
I'm so disconnected from my life  
Sometimes I can't stand the morning light  
Cause I miss you since you left me  
I'm just a reflection of your heart  
In the middle of this night  
I want you back  
I really need ya  
Give me love, give me shelter Save my soul from this loneliness  
Give me love, give me shelter Save me now cause I'm falling down  
Give me love, give me shelter Save my life from this emptiness  
Give me love, give me shelter Save me now, cause I'm falling down  
There's a lot of things behind my smile  
Cause I miss you since you left me  
Every day I'm trying to survive  
Sometimes I can't stand the morning light  
Cause I miss you since you left me  
I'm just a reflection of your heart  
In the middle of this night  
I want you back  
I really need ya..  
2x  
Give me love, give me shelter Save my soul from this loneliness  
Give me love, give me shelter Save me now cause I'm falling down  
Give me love, give me shelter Save my life from this emptiness  
Give me love, give me shelter Save me now, cause I'm falling down  
Ohh, ohh  
Ohh, ohh  
Ohh
