

Rebolt, Instant Star

Bowie said it first
I'm an instant star
But he never met the black hole
That I think you are

You suck on the attention
Like a candy bar
You're not Ziggy Stardust
You will never go far

Instant
Instant star
It's their opinion that's what you are
Instant
Instant star
Just add the water
You're an instant star

The love you on the box
Cause you look like a fox
You can barely sing a note
They never touch the remote

Instant
Instant star
It's their opinion that's what you are
Instant
Instant star
Just add the water
You're an instant star

Bright light burns fast
You've heard the phrase
Just think about it, cool cat
That could be your case

Instant
Instant star
It's their opinion that's what you are
Instant
Instant star
Just add the water
You're an instant star
