

Red Car Wire, Fame And Fashion

Baby, won't you tell me
Tell me, where have you been?
It's been so long since I've been without you
And it's not like I'm around the world,
Not like I'm caught up in fashion
And it's down right, outright, out of your mind
And it's not right, I'm right, got to unwind
I need time...
Help me out breathe fame & fashion
Pacific ocean, it needs attention
And it's not like I'm the only one,
Not like I'm caught up in fashion
And it's not like I'm caught up in fame,
And it's not like I'm caught up in...
You will get wasted again,
Stay up late and get shit-faced and
Do it again, in the morning
Tell me, tell me
Where have you been?
It's been so long since I've been without you
But it's not like I'm around the world,
And it's not like I'm caught up in fashion
You will get wasted again,
Stay up late and get shit-faced and
Do it again, in the morning
