

Red Car Wire, Rachael Leigh Cook

Wake up breathe out tell me what you
Thought about I just gotta know
Breakdown falling caught me on my
knees I'm crawling to be with you
Help me help you, you swept me off my
Feet I need to be with you
And you made me stutter
I can't stand this it's killing me
Here I am baby, you and me are
Running in circles
we're Running in circles
Sleep sweet dream please of you and me
And I will make you dreams come true
Wake up with me tell me that you love me
I just gotta know cause that how I feel
