

Red Car Wire, Summer 301

So here's the summer picture,
She's headed straight for your heart
And when the whole thing's over,
Summer's here, she's found her sweetheart
And this is the way we do it,
And this is the way we lose control,
Our sparks set it all on fire,
It's summer 101 two years ago
I play with girl's emotions,
I lie to keep lies from her
For the sake of this feeling,
I guess I'm just immature
And this is the way we do it,
And this is the way we bide our time
We set everything on fire
I miss the summer it's not over,
I waited all night long,
For you to wake up by my side
Until daylight,
Goodnight in this town
The season brings us closer,
I don't miss the way she missed me
She's perfect in this sunlight,
I caught her scent in the breeze
And this is the way we do it,
And this is the way we lose control,
Our sparks set it all on fire
It's summer 101 two years ago
I miss the summer, it's not over
I waited all night long,
For you to wake up by my side,
Until daylight,
Goodnight in this town
Do you miss me, baby, do you miss me?
Do you miss me, Hannah, do you miss me?
I miss the summer, it's not over
I waited all night long,
For you to wake up by my side,
Until daylight,
Goodnight in this town
In this town, woah in this town
In this town, in this town,
In this town
