

Red Cell, Designed To Fail

Use your obsessive colours
paint me in sadistic forms
I can't control me feelings
your naked skin - my call
And when I try to touch you
all process signal
And when I try to kill it
process alarm

Displaced by illusion
I wish this picture to fall
This is designed to fail
I wish this picture to fall

Don't use a scene in replay
tune in for something new
Please fade from dim to clear mind
Your ignorance - my fall
And when I try to touch you
all process signal
And when I try to kill it
process alarm

Displaced by illusion
I wish this picture to fall
This is designed to fail
I wish this picture to fall
