

# Red Flag, Russian Radio

I hear a voice from ten thousand miles away  
I have no choice, our love was meant to stay  
With or without, it's easy for me without a doubt  
As I spend my days, searching for ways  
Love is on the go, so is radio

## CHORUS

Russian radio  
How will we ever believe you?  
Radio  
Now that we've learned to deceive you

## BRIDGE

There is a sound, it's underground  
Moving out for miles around  
There is a sound, it's underground  
Let's move it out, boys

I hear a voice from one hundred miles away  
Getting so much closer every day  
With or without, it's easy for me without a doubt  
As I spend my days searching for ways  
Love is on the go, so is radio

## CHORUS

There is a sound  
There is a sound

## BRIDGE

I feel our love is only a smile away  
Getting so much closer to me every day  
With or without, it's easy for us without a doubt  
As we spend our days searching for ways  
Love is on the go, so is radio
