

Red Hot Chili Peppers, Blues For Meister

It's always half and half
I'm happy and I'm sad
Everything that's beautiful
Always kills me too
The highest I get up
Is the deepest I get down
You're up there with your life
That's why I gotta shout, shout,
...And then gotta shout, shout

Blues for Meister
You sweet little thing
Blues for Meister
I'm so sad I gotta sing
A cozy little kitty up
sittin' on the couch
Oh, kitty cat, oh, baby
I really miss you now
Well have some respect
For my cat
He got squashed by the wheel
Of a Cadillac
Well, me and my pussy
We lost our flow
Well, goodbye my little calico

Your food's still in the cupboard
Hangin' in its can
You used to love to eat it
Down
I'll always love you Meister
You were so good to me
There's nothing like you nowhere
As far as I can see
