

# Red Hot Chili Peppers, Body Of Water

Show me a sign that I love you  
Blow me a mind as you always do  
Remind me to tell you that I've come to  
Believe in the beauty, the power of you  
Woman, dissolve into the sea  
The body of water is calling me  
The god of my daughter is always free  
There's nothing to solve and you're solving me

Ooh, I'm in your company  
Ooh, body that's calling me  
Ooh, I'm in your company

Throw me a line I could use one  
I special-design me 'cause I'm your son  
Two thousand below where I feel my love  
The body of water where I come from

I'm dreaming, got a reason to steal  
Fire from the other side out there  
Formations flow like screams

I'm made with a life to spare  
Get the jizz, mr. sism? got a rythm  
Technology of a prayer  
Scientist to the prism of faith  
And hope so I am there

Baby I'm old, can you come here?  
The science of love is becoming clear  
Invisible love with the color still  
I need to a place in the atmosphere  
And I may believe...
